UNITED STATES DISTRICT COURT
SOUTHERN DISTRICT OF FLORIDA

CASE NO. 00-6284-CR-LENARD/SIMONTON

NIGHT BOX
FILED

JUL 13 2004

CLARENCE MADDOX
CLERK, USDC / SDFL / MIA

DAVID ISRAEL ALTMAN,

      Petitioner,

V.

UNITED STATES OF AMERICA,

      Respondent

GOVERNMENT'S RESPONSE TO COURT'S ORDER TO COMPLY WITH ORDER TO RETURN PROPERTY

Comes Now the Government, by and through the undersigned Assistant United States Attorney, and hereby responds to this Court's Order to Comply With Order to Return Property, and in support thereof, states the following:

David Altman filed a pro se Motion For Return of Property regarding computer disks that were seized from his residence located at 1828 SW 85th Avenue, Pembroke Pines, Florida. Altman asked that the seized property be returned to his "Attorney-in-Fact", Laurinda Lee Brown in Corpus Christie, Texas. The government did not oppose the motion as it respected property that did not contain contraband, that is, visual depictions of adult or child pornography or information relating to the collection of said depictions.
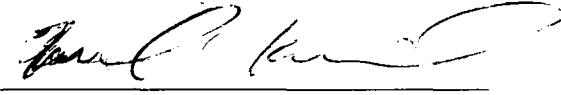

On June 6, 2000 agents of the FBI executed a lawfully obtained search warrant, authorized by United States Magistrate Judge Barry S. Seltzer, at 1828 SW 85th Avenue, Pembroke Pines, Florida. This warrant was sought and issued in connection with a child pornography investigation. The government seized numerous computer disks and diskettes, a number of which formed the basis for the petitioner's indictment and conviction. In all, over 80,000 images were found. Due to the volume of materials and the location of a substantial number of child pornographic images, the FBI did not originally examine each of the items seized. On April 25, 2001, the petitioner, after a plea of guilty, was sentenced to 87 months imprisonment and a term of 3 years supervised release. The Court in its Judgment and Commitment has made it a special condition of supervised release that he "shall not buy, sell, exchange, possess, trade or produce visual depictions of minors or adults engaged in sexually explicit conduct."

The government requested a period of time for the FBI to review each of the computer disks and diskettes in order to ensure that they do not contain prohibited materials. According to Special Agent Deborah Cool, the case agent in the instant case, the FBI computer department has now reviewed the hundreds of computer disks and diskettes to ensure that they do not contain prohibited materials. The attached report details the results of that review which disclosed that the overwhelming number of disks did contain adult and child pornography or were unreadable. In order for the FBI to return documented evidence it must be signed for. Therefore, the materials that do not contain contraband will be sent to the FBI field office in Corpus Christie where the disks may be picked up and signed for by the defendant's "Attorney-in-Fact", Laurinda Lee Brown. The contact agent is SA Megan Beckett, 800 North Shoreline, Suite 1100, North Tower, Corpus Christie, Texas 78401.Her phone number is 361-883-8671.

Wherefore, the Government complies with the Court's Order and returns property as it respects disks and diskettes that do not contain contraband.

Respectfully submitted,
MARCOS DANIEL JIMENEZ

Recommendation would be to return only original disks which were readable and determined not to contain child pornography; adult pornography and intellectual property rights (copyright) violations.

Original request did not include a review of subject's hard drive and will be addressed at the earliest possible time. *(possibly next two weeks to one month)*
